

SATFAB RUSTNIL

Liquid Neutraliser

Effective, high-quality, safe
cleaning products for Laundries

SATFAB RUSTNIL is a laundry sour specially formulated for use in commercial and on premise laundries. This product should be applied in the last rinse to neutralise residual alkali, chlorine and oxybleach

- SATFAB Rustnil is neutraliser for alkalinity, chlorine and oxygen bleach.
- These substances are acidic in nature and are applied to neutralize alkali present in rinse water and on fabric.
- SATFAB Rustnil can be used for all types of fabric.

BENEFITS:

- Effective neutralization of residual alkalinity/Chlorine/Oxy Bleach in rinse water and on fabric.
- Prevents iron precipitation hence preventing rust stains on fabric Prevents yellowing of fabric.
- Prevents fabric damage.

USAGE INSTRUCTION

- Dose into the final rinse (Sour step) of the wash process to neutralise residual alkali and ensure that correct pH of washed fabric (6.0_6.5) is achieved. For some other classifications, other pH guidelines should be followed.
- In addition check if the drain water is free of residual chlorine

FORMULATION

Phosphoric Acid	18%
Oxalic Acid	6%

SPECIFICATION

Appearance	: Liquid
Colour	: Clear liquid
Specific Gravity	: 1.10±0.05 g/cm ³
pH	: 1.50±0.5 in 1% solution 1.00±0.5 in 100% concentrate

PACKAGING :
25 kg
