

SATFAB BOOST

Alkali Booster

SATFAB BOOST is an alkaline booster specially formulated to assist in the removal of heavy soils, as found on F & B linen, engineering overalls, etc. When used in conjunction with detergent it gives excellent results. It does not contain caustic soda hence it is safe on fabrics.

- Special non – ionic formulation provides excellent detergency on all types of fatty soils.
- Quickly suspends and removes dirt particles.

USAGE INSTRUCTION

- The prescribed dosage is between 3 – 8 gm/kg of dry load depending on wash temperature, soil level, type of linen, water hardness and performance required.
- Our Technical customer service personnel will be happy to advise on appropriate dosage and suitable wash processes for your laundry.

FORMULATION

Soda Lye	80% - 90%
Sodium Meta Silicate (SMS)	10% - 15%

PACKAGING :
25 kg
sack

BENEFITS:

- Presence of a high level of anti-redeposition polymer prevents re-deposition of dirt and soil during the wash-cycle and eventually prevents fabric graying.
- High level of water hardness sequesterants ensures prevention of scale build – up and maintain linen whiteness.

SPECIFICATION

Appearance	: White Fine Powder
pH	: 11.00±0.5 in 1% solution
