

SATFAB RINSE

Neutralising Agent

SATFAB RINSE is a mildly acidic powder which has the properties of neutralizing both alkalis and chlorine. Addition of SATFAB RINSE in the last rinse completely neutralizes any excess alkalinity as well as bleach.

- Prevents yellowing and possible fabric damage due to chlorine carry over.
- Safe on all fabrics such as cottons, linens and synthetics.

BENEFITS:

- Ensures uniform results on the entire load due to its rapid solubility.
- Reduces need for extra rinsing by neutralizing alkalinity.
- Saves water, energy, time and reduces fabric wear.

USAGE INSTRUCTION

- SATFAB RINSE is to be dosed in the final rinse. Recommended dosage is 3-6 gms/kg of fabric load, depending on wash process.
- Our technical Customer services Personnel will be happy to advise on appropriate dosage and suitable wash processes for your laundry.
- Store in a dry place. Always use the same scoop for dispensing SATFAB RINSE. Close bag properly after use.

FORMULATION

Soda ash	30%
Sodium meta bi Sulphite	70%

SPECIFICATION

Appearance	: White powder
pH	: 10.50 - 11.50 in 1% solution.

PACKAGING :
25 kg
sack
